

Welcome to the Horokiwi community website; A device for sharing information, pictures, articles or links to other resources.

There are currently 2 main parts to the site - the Library and Picture Gallery where documents and pictures may be found, and a Message Center where messages may be posted, viewed and responded to.

There are different security levels also. The Public Library and Gallery is available to everybody, but only registered users can access the Community Library and Gallery and the Message Center. Registration is only available to residents and people with a close association with the community.
